Editorial

President's Message

Since its creation at the end of 2018, PARADISANTÉ has continued to grow and strengthen its commitment to solidarity and sharing.

The year 2024 marks an important milestone in our development, with the consolidation of our humanitarian partnerships and the continuous increase in donations of medical equipment from all over France. We are proud to see that our actions attract more and more individuals, as well as healthcare professionals and institutions, who trust us to give a second life to their unused equipment.

Our association allows everyone to get involved concretely to improve access to care for disadvantaged populations, both in France and internationally. Thanks to the generosity of our donors and the involvement of our volunteers, thousands of beneficiaries have once again benefited from our actions this year.

We are also forging stronger ties with humanitarian associations abroad, beneficiaries of the redistribution of medical equipment. This is particularly the case in Cameroon, where a team of PARADISANTÉ volunteers traveled twice to better assess urgent needs and monitor the redistribution process among local populations. These field missions allow us to better tailor our assistance and ensure that the equipment efficiently reaches those who need it most.

2024 is also marked by innovation and organization. Aware of the new challenges ahead,

we have begun a more advanced structuring of our association to provide even more services and efficiency. Among our flagship new projects, we are pleased to announce the launch this year of a medical equipment collection tour in the Alpes-Maritimes department, organized twice a month.

This initiative will facilitate the recovery of equipment from donors and optimize its redistribution to those most in need.

We are also keen to strengthen our reputation among healthcare professionals and institutions to multiply synergies and amplify the impact of our actions. Our ambition is clear: to become a key player in medical solidarity in the region and beyond.

I would like to warmly thank all the volunteers who keep PARADISANTÉ alive every day, as well as our loyal partners and all those who join us in this wonderful human adventure. If you also wish to get involved, know that every talent and every goodwill has its place within our association.

Together, let's continue to share to enable the humanitarian recycling of your unused medical equipment!

Julien Urnel
FOUNDER AND PRESIDENT
OF THE PARADISANTÉ
ASSOCIATION

2024 in Key Figures

During 2024, we carried out 21 relief actions in 8 different countries (Algeria, Cameroon, D.R. Congo, Côte d'Ivoire, Gabon, Greece, Senegal, and Ukraine), redistributing 24.77 tons of products and medical equipment worth €647,078 (at second-hand value).

In total, over 6 years, our association has conducted 98 humanitarian actions in 23 countries, representing 99.26 tons of redistributed medical equipment for a second-hand value of €2,002,824.

Weight & Value of Equipment Distributed since 2018

YEAR / PERIOD		WEIGHT DISTRIBUTED	SECOND-HAND VALUE
Year 1	2018-19	2,20 tons	€ 8.669
Year 2	2019-20	13,70 tons	€ 48.792
Year 3	2020-21	6,10 tons	€ 134.060
Year 4	2021-22 - 15 months	25,19 tons	€ 312.559
Year 5	2024	27,30 tons	€ 851.666
Year 6	2024	24,77 tons	€ 647.078

PARADISANTÉ : A Major National Player in Solidarity **and** **Humanitarian Recycling** **of Medical Equipment**

Firmly established, our association continued to develop in 2024.

Collection and Redistribution of Equipment

To the great satisfaction of our beneficiaries, we continue the collection and redistribution of medical equipment, whose quality keeps improving.

This solidarity approach benefits both individuals and healthcare professionals.

Improvement of Working Conditions

Our working conditions have been greatly optimized thanks to the acquisition of a **60 m² officewarehouse, ideally located in the heart of Nice** and perfectly equipped.

This space allows us to:

- **Regularly organize reception sessions for equipment**, open to individuals and healthcare professionals.
- **Ensure sorting and packaging** of products before their transfer to our main depot.

Logistics Management and Storage

After sorting, products are sent to our HOMEBOX depot, consisting of two 20 m² units. There, we palletize parcels and store bulky equipment awaiting shipment. These warehouses are functional and equipped with all necessary handling equipment (dollies, carts, pallet trucks, loading docks).

However, storage space remains insufficient given our growing needs.

Features and Advantages of Our Infrastructure

Our logistics organization allows us to:

- **Receive daily parcels** from individuals and healthcare professionals.
- **Receive many pallets of donations** from wholesalers and medical equipment manufacturers.
- **Accommodate large equipment** delivered by our service providers.
- **Prepare and load containers** for our beneficiaries.
- **Benefit from preferential van rental rates** for our collection tours.

Collection and Outreach

We regularly organize home collection tours for individuals, healthcare professionals, wholesalers, hospitals, and nursing homes.

The renewal of the subsidy granted by the Région Sud has amplified our recovery capacity, not only locally and regionally but also nationally.

Reputation and Trust

PARADISANTÉ has established itself as a major player in the solidarity and humanitarian recycling of medical equipment.

Our seriousness and rigor in managing our actions have earned us the trust of all our partners.

Our highly visited website generates about ten donation offers of medical equipment from individuals daily.

Many manufacturers, wholesalers, medical and hospital structures regularly entrust us with their overstocks or renewed equipment. Our long-standing sponsors renew their financial support, ensuring the sustainability of our actions.

International Missions:

Focus on Cameroon

In Cameroon, we have built strong ties with many local and national associations and authorities, allowing us to precisely identify the needs of hospital structures.

Our partnerships have enabled:

- The shipment of containers to the Communes of Tokombéré and Mokolo (Far North), in collaboration with RAJEC.
- Several shipments of equipment to the Commune of Sa'a (Center), with the support of AJUDES.
- Sending a container to the Commune of Akono (Center), in partnership with the association SOURIRE ET VIVRE ACTIONS HUMANITAIRES AFRIQUE

Association Life

Our membership is growing, with 56 members to date. Our association operates exclusively thanks to the commitment of its volunteers and active members, currently numbering 17

Our Donors in 2024 Healthcare Professionals and Companies

**A big thank you to the countless
individual donors** whose list is

Commune of Akono - Cameroon

> 1.7 tons of products and medical equipment

Bouchon Relais Bakhô

Côte d'Ivoire

> 1 container (5.9 tons) sent to hospitals

Financial Report Paradisanté Association **2024**

Financial Year
From 01/01/2024
To 31/12/2024

The total income for the year amounted to €52,702.54, representing a significant decrease (-47%) compared to the previous year. This drop is mainly due to a reduction in financial support from corporate sponsorship (-67.40%), which is the primary and essential resource for the operation, development, and implementation of our association's humanitarian activities.

- > However, our partnership with INTERMED EXPORTATION has been maintained and secured for the next three years, and the company EVOLUTIS has chosen to continue supporting us, though with a reduced contribution.
- > New sponsors have also come to our aid: the company NEXCLIP TECHNIC, which provided us with substantial support, as well as MIF SOURCING.

Our invoiced service activities have increased (+19.96%) because we are now asking our partner associations for greater contributions to our various operating costs.

The PACA Region has renewed its support by awarding us a grant in the same amount as the previous year. This subsidy is intended to finance our collections, storage, management, and redistribution of medical and paramedical products and equipment.

Despite a growing number of members, the amount of membership fees collected has decreased (-22.82%), probably due to purchasing power difficulties among some of our benefactors.

Good management of our cash flow during the 2024 financial year enabled us to earn €1,254.54 in interest income. The transfer of charges corresponds to a partial reimbursement by our insurance for damage caused to our storefront.

Our total expenses amounted to €63,012.21 (+42.68%). This increase is mainly due to the following two items:

- > Property rental and related charges: €27,303.13. The increase (+94.68%) is justified by the expansion of our storage and office space from 40m² to 100m² in 2024.
- > Transport costs: €17,073.99 (+33.75%) due to increased transport costs and also because we used service providers, which in turn allowed us to reduce our vehicle rental expenses. In fact, the property rental item decreased significantly (-54.28%) thanks to better organization of our collection rounds, particularly favorable rental rates granted by our storage provider HOMEBOX, and occasional use of service providers.

The maintenance and repairs item mainly concerns the repair of our awning and sign following an incident. Intermediary remuneration corresponds to the cost of first aid training for our volunteers. All other expense items remained relatively stable.

Result for the year :

Taking into account the various income and expense items mentioned above, there is a loss of €10,309.67 for the year 2024. Consequently, without sufficient financial support—particularly from corporate sponsorship and the support of the Région Sud—the sustainability of our association could be compromised.

Christian
